Together we can do more.

It’s not just what we make...
It’s what we make possible.

Zimmer Dental and BIOMET 3i have joined forces to become a leader in oral healthcare solutions as the Zimmer Biomet dental division. Each company has innovated and introduced market-defining solutions, creating long proud histories of commercial and clinical success. Together, with our combined 62 years of dental industry experience, we are committed to redefining dentistry for today. Making it remarkable.

The Zimmer Biomet dental division puts patients and professionals first in all things. With surgical, regenerative and restorative products, and digital dentistry solutions that work alongside world-class educational opportunities and responsive, personalized service, Zimmer Dental and BIOMET 3i are collectively committed to helping your progress—that is the essence of our commitment to you. A commitment that comes to life in all that we do, all that we strive to become in close collaboration with you.

As before, research and development will be a high priority with an impressive team dedicated to developing new techniques, technologies and materials that will advance all aspects of dentistry around the world, including:

**SURGICAL**
Delivering a comprehensive product portfolio of innovative surgical solutions to meet demanding clinical needs.

**REGENERATIVE**
We offer an extensive portfolio of regenerative materials for both hard and soft tissue applications, including allograft and xenograft bone products, demineralized bone matrix collagen membranes and wound dressings.

**RESTORATIVE**
Providing high-quality, versatile prosthetic components for all types of implant restorations, including a full line of abutments in a variety of materials, as well as bars, screw-retained bridges and overdenture components.

**DIGITAL DENTISTRY**
Committed to delivering end-to-end solutions ranging from guided surgical offerings to open architecture CAD/CAM systems, empowering the future of implant dentistry.

**EDUCATION**
The Zimmer Biomet Institutes provide world-class educational opportunities at learning facilities throughout the world, focusing on current and emerging procedures, technologies and products.

---

**Key Facts:**
